

Fellowship in Addiction Dissemination & Implementation Science

EXTENDED DEADLINE: April 15, 2024

The C-DIAS Fellowship in Addiction Dissemination & Implementation (D&I) Science is for **early or mid-career individuals with goals to improve public access to and quality of addiction treatment** by leveraging advanced D&I scientific methods.

This curriculum-based but individualized program:

- ▶ Is a **two-year (Sept 2024-Sept 2026)**, primarily virtual fellowship
- ▶ Includes 3 days at Stanford University (Sept 11 - 13, 2024) for the C-DIAS annual meeting to connect with Expert Faculty, Advisory Board Members, and past and current Fellows
- ▶ Features a **Research Track** with a goal of preparation for an NIH-funded addiction D&I research career; and a **Learning Health Systems Track** to apply D&I methods for substance use as an embedded researcher or improvement specialist
- ▶ Combines didactics, experiential peer group-based learning, individual mentoring, and guidance in professional development
- ▶ Enables individuals to maintain their full-time employment

Activities include monthly, virtual, hour-long lectures; participation in the C-DIAS Research Core sections activities; C-DIAS Virtual Grand Rounds; individualized mentoring; lead authorship opportunities; and support developing an NIH grant application or proposal to solve a health systems problem. The C-DIAS Fellowship is eligible for CME/CE credits.

Extensive **opportunities** exist for networking, joining a vast network of individuals engaged in the addiction treatment health services research and practice community, and real world impact.

There is no stipend for C-DIAS Fellows; however, some travel expenses are covered.

PREREQUISITES	Doctoral degree in medicine, social or behavioral sciences, nursing, public health, health economics or related fields with all post degree requirements completed.
APPLICATION MATERIALS	<ul style="list-style-type: none"> • Addiction D&I project Specific Aims (Research Track) or proposal to solve a health systems problem (Health Systems Track) (1 page) • Statement detailing career goals (2 pages) • Curriculum Vitae • 3 writing samples • 3 letters of reference
