

# Addiction Psychology Opportunities in APA-Accredited pre-doctoral Internship Programs

The Society of Addiction Psychology developed this list with the goal of providing a quick reference for students seeking an APA-Accredited pre-doctoral internship that includes addiction training. Note that this is not intended to be a comprehensive list, and instead, represents those programs that provided identifiable information during **data collection from Spring 2019 - Summer 2019**. We intend to update the below information yearly, adding, deleting and updating programs as necessary. The direct link to the program information in the APPIC directory is listed for ease of reference. The APPIC directory and program websites should always be considered the most up-to-date source of information. Questions, concerns, or updates to programmatic information should be directed to Dr. Jessica L. Martin at [jlmartin@albany.edu](mailto:jlmartin@albany.edu).
