

## NIH Postdoctoral Research Fellowship Opportunity

The University of Vermont's Center on Behavior and Health announces an NIH postdoctoral research fellowship opportunity in our internationally recognized center of excellence for the study of substance abuse. The fellow will participate in the conduct of an ongoing NIDA/FDA-funded trial on the use of tobacco in vulnerable populations, as well as develop new research opportunities in related areas. The mentoring team has an exceptional track record of helping fellows further their careers as independent investigators.

**Eligibility:** Applicants must have completed their training in psychology, behavior analysis, or a related discipline. Trainees are selected on the basis of scholastic record and commitment to a career in tobacco research. Individuals must be highly motivated, possess initiative and a desire to learn and expand their interests and expertise. Experience with behavioral economics is highly valued. There may be additional application requirements if you are a non-US citizen or non-permanent resident. **Appointment:** 2-3 yrs.

**Benefits:** Stipend, medical insurance coverage, and travel funds supported by NIH Institutional Training Awards.

**To apply:** Send application form ([downloaded from VCBH website](#)), a cover letter, curriculum vitae, statement of research interests, and 3 letters of reference to: Dr. Diann Gaalema c/o Ms. Marissa Wells (mwells2@uvm.edu).

**About us:** The VCBH was established in 2013, sponsored in part by a Centers of Biomedical Research Excellence (COBRE) Award from the National Institute on General Medical Sciences and a Centers of Tobacco Regulatory Science (TCORS) Award from the National Institute on Drug Abuse. The VCBH resides within the College of Medicine at the University of Vermont, with the director and administrative offices being located within the Department of Psychiatry, and participating investigators, collaborators, and advisors across 15 academic departments in the College of Medicine and 7 colleges within UVM and 5 other universities. The VCBH is further strengthened by interdisciplinary collaborations with key community healthcare leaders and distinguished scientific advisory panels. The focus of the VCBH is on investigating relationships between personal behaviors and risk for chronic disease and premature death, with a specific focus on understanding mechanisms underpinning risk, and developing effective interventions and policies to promote healthy behavior.

**For more information:** Contact Ms. Marissa Wells, mwells2@uvm.edu or see our [website](#).

*Burlington, Vermont is located in the beautiful Lake Champlain region, surrounded by the Green and Adirondack Mountains. It is a great place for families, boasting excellent schools and year-round recreational opportunities. It is home to the University of Vermont and many other colleges that provide an academically stimulating and culturally rich environment. Montreal and Boston are within easy driving distances.*
