WEBINAR

Telehealth and eHealth for Treatment of Alcohol Use Disorder during the COVID-19 Pandemic and Beyond

November 3, 1:00 p.m. – 2:30 p.m. ET

REGISTER

The COVID-19 pandemic has had an enormous impact on public health and well-being. Alcohol misuse, a significant public health concern, not only has the potential to further complicate the pandemic, but the pandemic may be driving increased alcohol misuse.

This webinar will highlight how telehealth and eHealth have been implemented in the treatment of alcohol use disorder—both in the past and during the COVID-19 pandemic—and discuss the challenges that have emerged for patients, providers, and payers as these telehealth/eHealth interventions continue to reshape traditional behavioral health services.

The National Institute on Alcohol Abuse and Alcoholism (NIAAA), one of the 27 Institutes and Centers of the National Institutes of Health, supports research examining the relationship between alcohol misuse and the pandemic, including how treatment
strategies have been modified while meeting the needs of individuals who struggle with alcohol misuse.

This webinar is sponsored by the Friends of NIAAA in collaboration with the American Psychological Association

Webinar Topics and Speakers

Welcome and Introductions
Robert Huebner, PhD, Chair, Friends of NIAAA

Telehealth Before, During the Pandemic, and Beyond: The Challenges
George Koob, PhD, Director, National Institute on Alcohol Abuse and Alcoholism

Telehealth for Alcohol Use Disorder Treatment: Observations from Before and During the Pandemic
Haiden Huskamp PhD, Professor, Henry J. Kaiser Professor of Health Care Policy, Department of Health Care Policy, Harvard Medical School

Alcohol Telemedicine Consultation in Primary Care: Increasing Access to Pharmacotherapy and Specialty Treatment for Alcohol Problems
Stacy Sterling, PhD, Research Scientist, Division of Research, Kaiser Permanente Northern California

Telemental Health with American Indian and Alaska Native Communities: Lessons from 20 years in the Field
Douglas Novins, MD, Cannon Y. & Lyndia Harvey Chair in Child and Adolescent Psychiatry, Chair, University of Colorado, Anschutz Medical Campus

Telehealth and eHealth after COVID: Recent Advances and Persistent Barriers
William Campbell, PhD, Research Scientist, Checkup & Choices

This webinar is sponsored by the Friends of NIAAA in collaboration with the American Psychological Association
